

Traumatic Incident Reduction Workshops

With this accredited workshop the successful learner receives an international certificate and the opportunity to join the international TIR Association (certain benefits). 17 CPD & 30 VBO points are awarded to Social Workers and NGK Pastors. 10 CPD points for CPSC .

TIR is a rapid and effective method to permanently relieve trauma (new trauma and PTSD). Although a trauma incident can never be removed completely from a person's life, the negative and unwanted emotions and effects can drastically be reduced (so far that the person can now function on a more normal level.) With TIR the counsellor guides the client repetitively through the trauma until relief is experienced. After the workshop, the student will be able to apply the techniques in practice.

Manuals are included in Fees. Workshop presented online on Zoom.

Werkkswinkels word tweetalig aangebied afhange van die deelnemers.

Cost: R5000. (Discounts for groups and early payment)

Dates 2021: 07-10 June, 2-5 August , 4-8 October, 1-4 Desember

Registration form on next page.
